

# MEI Further Pure with Technology (FPT)

A short introduction to MEI's *Further Pure with Technology* component.

## Further Pure with Technology:

FPT is an A level Further Mathematics option that can be studied alongside (or after) studying the Core Pure element of A level Further Mathematics.

This option builds on and extends students' knowledge of pure maths through using technology to perform mathematical processes quickly and accurately.

## What does this session include?

This session will provide details on the content of FPT and will include suggestions for how to deliver it.

## Is this session for me?

This session is aimed at teachers who are considering offering FPT as one of the minor components for students in the new A level Further Mathematics.

### Venue

Exeter Mathematics School

### Date and time

Wednesday 18 April 2018, 15:00-17:00

### Fee

Free

### Registration

[bit.ly/FPTatEMS](http://bit.ly/FPTatEMS)
