

Get Set for the 2017 maths A levels

Hosted by: Leicester city hub

This programme of four one-day courses is designed to help teachers of A level Mathematics prepare for the new specifications.

It is appropriate for all specifications.

Principles of the new mathematics A levels: 28th June 2017

The day will focus on practical ways of planning for the changes to A level Mathematics, with an emphasis on embedding the three overarching themes of mathematical reasoning, problem solving and modelling in order to prepare students for the new qualifications.

We will look at a range of strategies you could use in your department to ensure the use of technology permeates the study of A level Mathematics.

Venue: St Paul's Catholic School, Spencefield Lane, Evington, Leicester, LE5 6HN

Course fees and application:

The fee for each one day 'Get Set' course is £90, including lunch. We recommend that at least one teacher from your school/college attends each of the four courses.

For further details and online application form, see mei.org.uk/2017-pd
