

Leaders of Maths in Further Education

Academic year: 2026–27

Course Overview

This course is designed for new or aspiring Maths Leads who want to develop strong leadership and management skills, reflect on the demands of the role, and lead their teams with confidence.

You will explore key leadership areas, including effective planning, inspiring and supporting teachers, leading improvement, and meeting the diverse needs of learners, which are all essential for operational and strategic success.

Each session will be followed by a set of modules to complete before the next session. This allows you time to apply ideas between sessions while maintaining regular contact with your peers and tutor.

Format of the course:

- Three online sessions via Zoom and six on-demand modules via MEI's learning platform, Integral
- Each online session will run for 90-minutes

Schedule

The sessions will run from 18:30 to 20:00.

You can choose from two start dates, **Wednesday, 7 October** or **Wednesday, 9 December**. Below you can view the whole timetable.

Session	Cohort 1	Cohort 2
Session 1	Wednesday, 7 October	Wednesday, 9 December
Session 2	Wednesday, 18 November	Wednesday, 3 February
Session 3	Wednesday, 13 January	Wednesday, 17 March

Eligibility

The MEI Further Education CPD programme is funded by the UK Government to provide professional development to teachers in statutory Further Education settings in England. This funding is specifically for teachers whose students are subject to the Government's Condition of Funding policy in these settings.
