

FE National Online Events

Academic year: 2026–27

Sessions overview

Online sessions for leaders and teachers which explore practical, inclusive strategies to help all students thrive.

Our National Online Events bring Further Education maths teachers, practitioners, managers and leaders together to explore timely, practical topics throughout the FE academic year. Each session is framed around a key student-focused question and offers strategies, resources and real examples to help you support every learner to succeed.

Features of the sessions:

- Online sessions throughout the year
- Delivered via Zoom
- Ran by further education maths experts

Schedule

Each sessions will run from **14:00 – 15:30** and be delivered via Zoom.

Session	Topic	Date
Session 1	How can we help future students by learning from this year's cohort?	Thursday, 27 August
Session 2	What should enrichment look like in FE maths?	Wednesday, 18 November
Session 3	How can we help students to prepare for exams?	Wednesday, 3 March

Eligibility

The MEI Further Education CPD programme is funded by the UK Government to provide professional development to teachers in statutory Further Education settings in England. This funding is specifically for teachers whose students are subject to the Government's Condition of Funding policy in these settings.

For queries around eligibility, please e-mail FECPD@mei.org.uk
