

What is the MEI Staffroom?

The MEI Staffroom is a place on Integral where teachers of the OCR B(MEI) AS/A levels can access support from MEI. You will have access to specialist advice and networking with other teachers. You will also be able to access schemes of work, extra resources to support you and your students, and professional development. The PD runs online throughout the year and can also be offered in person for schools, colleges or MATs who would like bespoke PD to match their needs.

How to access the MEI Staffroom

You need some kind of access to Integral, either through a [school/college subscription](#) or through [free registration with the AMSP](#). When you sign up you need to indicate that you teach the MEI A levels.

If you think you have an Integral subscription or registration, first try [this link](#). It will take you to a log in page first, but you may find you already have access to the MEI Staffroom. Alternatively, if you are in Integral already, look in the menu under My Courses > Tutor Areas.

If that does not work, your Integral dashboard has a link to the MEI Staffroom. If you have an Integral subscription it will look like this.

The screenshot shows the Integral dashboard interface. At the top, there are buttons for 'Integral Dashboard' and 'Customise this page'. Below these is a blue banner with the text: 'MEI Staffroom Did you know you can register for the MEI Staffroom, an online space where you can access: extra resources for the MEI AS/A levels; online and face-to-face professional development; and other support? More details'. The 'MEI Staffroom' text is circled in red. Below the banner, there is a 'Recently accessed courses' section with two course cards: 'MEI Mathematics: Year 1 (AS) Pure' and 'MEI Mathematics: Year 2 Statistics'. To the right is a 'Calendar' for November 2021.

If you have an AMSP registration it will look like this.

The screenshot shows the Integral dashboard interface for a user with an AMSP registration. At the top, there are buttons for 'Integral Dashboard' and 'Customise this page'. Below these is a blue banner with the text: 'Terms and conditions of use You have logged on using an account provided free to your school/college for registering with the Advanced Mathematics Support Programme. It is for the use of staff only and may NOT be made available to students. You may NOT add resources from this site to your own school VLE. Find out about subscribing to Integral'. Below this is another blue banner with the text: 'Core Maths resources As a school/college registered with the AMSP you can access extensive new resources, developed by the AMSP, to support Core Maths. If you have registered with the AMSP for the current academic year, you will find resources applicable to all Core Maths qualifications in the AMSP Core Maths Generic resources available in your course list below. If you stated the Core Mathematics specification(s) used in your school/college when registering with the AMSP, resources tailored for those specifications are also available below. You can also apply for free individual teacher and student accounts for these resources via this online subscription form. These accounts will enable teachers to track the progress of individual students, a feature not available via this shared teacher account.' Below this is a third blue banner with the text: 'MEI Staffroom Did you know you can register for the MEI Staffroom, an online space where you can access: extra resources for the MEI AS/A levels; online and face-to-face professional development; and other support? More details'. The 'MEI Staffroom' text is circled in red. Below the banners, there is a 'Recently accessed courses' section with two course cards: 'Core Maths AQA Core Maths: 2B Critical path and risk analysis' and 'GCSE and post-GCSE AQA Level 2 Further Mathematics'. To the right is a 'Calendar' for November 2021.

If none of that works, contact Keith Proffitt at keith.proffitt@mei.org.uk
